

## Season 02 Week 07

### Problem Statement

Indra, a cybersecurity enthusiast, has recently started learning about different ways of encrypting and decrypting a message. She wants to test her knowledge and wishes to test her proficiency with decryption tools. You, as her friend, decide to boost her passion for cybersecurity by providing her with an encrypted text. As members of **UiPhoria**, you and Indra both decide to keep the **key** as “**UiPhoria**”.

Now Indra has to perform the following steps:

- Download the encrypted text's PDF from: <https://shorturl.at/agAD2>
- Navigate to the website: <https://cryptii.com/pipes/vigenere-cipher>
- Enter the **Encrypted text** and the **key** into the website.
- Extract the decrypted text and save it into a text file.
